

Dear Hiring Manager,

I am writing to express my enthusiasm for the Software Engineering Apprenticeship at American Express, as advertised. The prospect of joining Team Amex, renowned for its commitment to global progress and a supportive work environment, aligns seamlessly with my passion for technology and commitment to personal and professional growth.

As a dynamic and collaborative thinker, I am excited about the opportunity to contribute meaningfully to the Scrum team's projects. My prior coding experience, coupled with an eye for detail and a knack for identifying innovative solutions, positions me well to thrive in a technology-driven environment. I am particularly drawn to the prospect of working with a diverse range of programming languages such as Java, Go, Kotlin, Python, Java Script and Spring, as it aligns with my goal to broaden my technical expertise.

Moreover, I appreciate American Express's deep-rooted culture of learning and development. The prospect of engaging in a bespoke learning program encompassing technical skills, leadership training, and networking experiences resonates with my commitment to continuous improvement. I am confident that the 18-month apprenticeship will not only enhance my technical proficiency but also expose me to projects with a real and lasting impact on the business.

What excites me most about this opportunity is the chance to contribute to a company that values innovation, collaboration, and a diverse community. I am eager to bring my creativity, communication skills, and technical acumen to Team Amex, where I can actively participate in an Agile environment, contribute to software development, and embrace the challenges and learning opportunities offered by the program.

Thank you for considering my application. I am enthusiastic about the prospect of contributing to American Express's legacy of success and pioneering the way forward in the world of technology.

Sincerely,  
Daulet Alzhanov
